2003-2004 Programs

Explore International Studies Online

Leverage the power of the Internet to deliver exciting new motivating learning activities to your students. Join a worldwide group of classrooms using Camp Internet for International Studies distance learning.

Bring new technology tools and award-winning curriculum content to your classrooms and valuable professional development to your teachers. Each enrollment includes a digital camera for publishing student work online in an international community gallery. GPS units are also available !

Winner Smithsonian Innovation Award, Nat'l Science Foundation Intl Programs, USDA, and US Dept of Ed awards since 1993

International Schools Program

Camp Internet Program 'International Studies with Global Technologies'

International Baccalaureate Educators are invited to enroll in a school-year program using your Internet connectivity to access and deliver an innovative distance learning program for students and professional development for teachers.

Program Format Each teacher enrolled is provided with full Camp Internet online access and implementation strategies for delivering highly motivating International Studies with reading, writing, history, and science projects to their students in the classroom. Classes can use any of Camp Internet's resources and for Int'l Baccalaureate Schools we recommend our '**Explore the Global Garden**' for grades K-8, '**Peace Studies**' for grades 4-12, or '**GPS/GIS Mapping**' for grades 5-12. *Full year's enrollment is \$299 incl. the digital camera Tool Kit. GPS add-on is \$120.*

Workshops Teachers are also invited to attend an optional four-day workshop on educational technology curriculum integration strategies. Schools in Asia are invited to attend in Hawaii, schools in the Caribbean are invited to attend in Costa Rica, and schools in Europe, Middle East, and Africa are invited to attend in Italy. U.S. schools are invited to attend in California. The 2004 workshops will be scheduled at times that best meet regional area school needs. *Each workshop is \$499 for four days of instruction.*

**Workshops are planned for
California, Hawaii, Italy, and Costa
Rica in 2004**
